FOREWORD

PART I SETTING THE STAGE

CHAPTER 1 INTRODUCTION: THE MANAGERIAL IMPERATIVE TO MASTER SUPPLY CHAIN DYNAMICS
1.1. It happens in the best of families
1.2. From spaghetti to asparagus: How firms changed completely in just two decades
1.3. The intellectual slaves of some defunct economist
1.4. The rediscovery of industrial dynamics
1.5. With both feet firmly on the ground…
1.6. …But with our heads in the air

CHAPTER 2 MODELS OF MAN: INTRODUCING THE LANGUAGE OF SYSTEM DYNAMICS
2.1. Stocks & flows modeling and dynamics
2.2. Positive feedback
2.3. Negative feedback
2.4. Material delays
2.5. Intermezzo: Little’s law for lead-times
2.6. Information delays
2.7. Casual loop diagrams
2.8. Systems archetypes of behavior
2.9. Oscillation

CHAPTER 3 BOUNDLEY RATIONAL: HUMAN LIMITATIONS TO EFFECTIVE DECISION-MAKING IN DYNAMIC ENVIRONMENTS
3.1. Introduction: Living in a complex world
3.2. Rationality filters
3.3. Cognitive filters: Bathtub dynamics
3.4. Behavioral filters
3.5. Organizational filters
3.6. Strategic filters
3.7. A system dynamics perspective on decision-making
## Table of Contents

### Part II Demand Shock Dynamics in Supply Chains

#### Chapter 4 The Curse of Cyclicality: Managing Semiconductor Supply Chain Dynamics

- **4.1.** Introduction: A thoroughly cyclical industry 106
- **4.2.** The problem: Why are we always late? 108
- **4.3.** A model of an IC manufacturing supply chain 112
- **4.4.** Model behavior: Understanding what happened in the real world 124
- **4.5.** Policy analysis 129
- **4.6.** Conclusions: The curse of cyclicality 135

#### Chapter 5 In Praise of Lies? On Information Sharing in High-Tech Supply Chains

- **5.1.** Introduction: Order status visibility during capacity shortages 138
- **5.2.** Intermezzo: Upstream order amplification 140
- **5.3.** The case study: ASML and the dotcom demand bubble of 2001 146
- **5.4.** The model: A 3-echelon supply chain 155
- **5.5.** Model behavior: Replicating what happened in the real world 165
- **5.6.** Model analysis 172
- **5.7.** Conclusions: Management insights 178

#### Chapter 6 Relevance Assumed: Surviving Market Growth Dynamics in Professional Services

- **6.1.** Introduction: How to survive success 181
- **6.2.** Performance measurement and the balanced scorecard 183
- **6.3.** The case study: Sudden demand growth for legal aid services 191
- **6.4.** The model: A learning service supply chain 199
- **6.5.** Model behavior: Replicating what happened in the real world 215
- **6.6.** Policy analysis and design 221
- **6.7.** Conclusions 225
PART III WORKLOAD-QUALITY DYNAMICS IN NEW PRODUCT DEVELOPMENT AND INTRODUCTION

CHAPTER 7 THE BOILED FROG: DECISION TRAPS IN MANAGING NEW PRODUCT DEVELOPMENT PROJECTS

7.1. Introduction: Why do product development projects fail so often? 230
7.2. Intermezzo: The allure of stage gates 231
7.3. The case study 233
7.4. Case analysis (1/2): Key feedback loops that drive behavior 239
7.5. Case analysis (2/2): Once more, why didn’t they see it coming? 245
7.6. The model 255
7.7. Model behavior: Replicating what happened in the real world 264
7.8. Policy analysis 267
7.9. Conclusions 272

CHAPTER 8 PILOT ERROR? MANAGERIAL DECISION BIASES IN NEW AIRCRAFT DEVELOPMENT PROGRAMMES

8.1. Introduction: Late arrivals 275
8.2. Concurrent and sequential engineering 279
8.3. Case setting: The Airbus A380 programme 281
8.4. Under the hood: Model structure 283
8.5. Model behavior: Replicating what happened in the real world 295
8.6. Key loops driving behavior 299
8.7. Improving behavior 302
8.8. Conclusion 311

CHAPTER 9 THE SERVICE QUALITY CASCADE: MANAGING RAMP-UPS IN SERVICE SUPPLY CHAINS

9.1. Introduction: Why does poor service prevail? 314
9.2. IT-enabled service supply chain dynamics 316
9.3. Capacity planning for service supply chains 317
9.4. The case: Broadband telecom services at KPN 324
9.5. A model of the IPB service supply chain 328
9.6. Model behavior: Replicating what happened in the real world 344
9.7. Policy analysis 349
9.8. Conclusions 357

| CHAPTER 11 | VIRTUOUS AND VISCIOUS CYCLES IN ERP IMPLEMENTATION: INTRA-ORGANIZATIONAL COLLABORATION DYNAMICS IN AEROSPACE | 397 |
| 11.1. | Introduction: Understanding ERP implementation dynamics | 398 |
| 11.2. | Success factors for ERP implementation from the literature | 399 |
| 11.3. | The case: ERP implementation at Fokker Aerostructures | 403 |
| 11.4. | A model of inter-functional collaboration | 407 |
| 11.5. | Model behavior: Replicating what happened in the real world | 419 |
| 11.6. | Understanding the key loops that drive behavior | 421 |
| 11.7. | Policy analysis | 425 |
| 11.8. | Conclusions | 434 |

| CHAPTER 12 | COLLABORATIVE KPIS: MANAGING BUYER-SUPPLIER COLLABORATION IN OUTSOURCED IT SERVICES | 437 |
| 12.1. | Introduction: How to move from a vicious to a virtuous relationship spiral | 438 |
| 12.2. | The case setting | 440 |
| 12.3. | The problem: Changing markets and unchanging contracts | 442 |
| 12.4. | The problem-solving approach: Moving from buyer services to contracting performance | 443 |
| 12.5. | A model of outsourced IT buyer-supplier dynamics | 451 |
| 12.6. | Model behavior: Replicating what happened in the real world | 472 |
| 12.7. | Model analysis | 482 |
| 12.8. | Conclusions | 485 |
